To Whom It May Concern

Letter of Authorisation – BBA/UKTA-Certified EPS System

This letter formally confirms that **TaylorMade Facades Ltd, Gasworks Road, Aberaman, Aberdare, R.C.T CF44 6RS**, is authorised by VPI Products UK Ltd to use, apply, and install the **VPI RHEATHERM 600 Expanded Polystyrene (EPS) External Thermal Insulation Composite System (ETICS)** for construction projects across the United Kingdom.

Product Scope (with Explicit Armament Itemisation)

This authorisation explicitly covers **EPS components and assemblies used for, but not limited to:**

- Copings
- Sills
- Window heads
- Bands
- Cornices
- Door and window surrounds
- Parapet Cappings/caps
- String courses
- Quoins
- Other decorative mouldings and façade details

where such applications are included within the scope of the BBA/UKTA certificate.

Scope of Authorisation

VPI Products UK Ltd authorises TaylorMade Facades Ltd to:

1. Utilise the **RHEATHERM 600 EPS system** – the external wall insulation kit identified under **UK Technical Assessment No. UKTA 0836 22**, issued 24 October 2022 by the British Board of Agreement (BBA).
2. Incorporate all VPI-specified basecoats and renders, including but not limited to the **fire-resistant RHAMIX MONO basecoat**, as listed within the UKTA certificate.
3. Reference this authorisation as third-party evidence of system compliance with NHBC, Taylor Wimpey UK Ltd, and any accredited building control or warranty body.
4. Use the BBA/UKTA-certified system, components, and installation methods, with all materials sourced directly from VPI Products UK Ltd or its approved distributors.

Fire Safety and Regulatory Compliance

The **RHEATHERM 600 EPS system** is certified under **UKTA 0836 22** to **BS EN 13501-1 fire classification B-s1,d0 / B-s2,d0**, as required by Building Regulations Approved Document B. This meets or exceeds **NHBC and warranty body fire performance standards** for architectural detailing and exposed applications, as verified by valid third-party independent certification.

Validity and Quality Conditions

- This authorisation remains valid until 2027, subject to continued BBA/UKTA certification and no change in product composition or scope.
- All site applications must strictly conform to VPI's BBA/UKTA-certified method statements and quality assurance protocols.
- VPI Products UK Ltd retains intellectual property over all aspects of the RHEATHERM 600 system and its certified components.

VPI Products UK Ltd is pleased to confirm TaylorMade Facades Ltd is a formally authorised, compliant systems user and installer for the above purposes throughout the UK

Yours faithfully,

Name: ANTHONY ROUSE

Position: COMMERCIAL DIRECTOR

For and on behalf of VPI Products UK Ltd
